

## **FMPro™ Copy of Inspection Records**

ACTON, Mass (March 2023) Digital Facilities Corporation (DFC) has released a set of program updates for FMPro™ a specialized Building Envelope Management solution for comprehensive asset management of Roofing, Façade, Paving and Vertical transportation equipment.

FM-Pro™ is suited for building owners, asset area consultants and building service providers. This easy to deploy SaaS solution is ideal for maintaining annual observation reports, facility and building envelope assessments.

The latest release adds a copy function to allow a user to save record updating of inspection records. Currently the condition fields of the inspection record reflect the current condition of the asset. The copy inspection option copies all information from one section to the selected asset section(s). This new feature provides the user an integrated tool to quickly update records saving data entry time updating asset management data sets.

Program users can find complete instructions and specific features on the copy inspection records release and under new features.
