

FMPro™ Facility Condition Report Updated Image Size Options

ACTON, Mass (September 2021) Digital Facilities Corporation (DFC) has released a set of program updates for FMPro™ a Building Envelope Management solution for asset assessments for Roofing, Façade, Paving and Vertical transportation equipment.

FM-Pro™ is suited for building owners, asset area consultants and building service providers. This easy to deploy SaaS solution is ideal for maintaining annual observation reports, facility and building envelope assessments.

The latest release adds multiple size printing options for facility condition reports (FCR). The reporting template allows selections of asset condition information with images and allows the user to easily change image printing sizes in both summary and detail areas of the report. Consultants can select image sizing for highlighting critical defects, observations that print dynamically with-in the FCR report.

About DFC

Since 2002, Digital Facilities Corporation (DFC) has offered integrated technologies and project support services for the assessment and management of critical exterior building systems. The company's headquarters is in the Boston area.
