

## **FMPPro™ Adding Multiple Offices Locations.**

ACTON, Mass (Feb 2021) Digital Facilities Corporation (DFC) has released a set of program updates for FMPPro™ a Building Envelope Management solution for asset assessments for Roofing, Façade, Paving and Vertical transportation equipment.

FM-Pro™ is suited for building owners, asset area consultants and building service providers. This easy to deploy SaaS solution is ideal for maintaining annual observation reports, facility and building envelope assessments.

The latest release adds options for managing multiple offices and adds multiple company addresses that are linked to user accounts. In some instances, a company subscriber to FM-Pro may have access to use multiple business locations, for users may be operating out of one or more locations.

A new menu option "Company Preferences" found under the Company menu and available to admin users. This option allows you to add multiple addresses, which can be linked to a user account.

In the user accounts menu, 2 new fields have been added; primary address and alternate address which will allow a specific address to be linked to the user, along with any other alternate prints the facility condition report, the template configuration will display the address linked to the logged in user and will allow for the selection of an alternate address if required.
